RALPH FESSENDEN DISCUSSES 'SILICON COMPOUNDS'  
AT STANFORD RESEARCH INSTITUTE IN CALIFORNIA

MISSOULA--

Dr. Ralph J. Fessenden, professor of chemistry at the University of Montana, recently spoke at the Stanford Research Institute, Menlo Park, Calif. He discussed "The Biological Properties of Silicon Compounds" June 2-3 at the institute.

Silicon, an abundant element on earth, is similar to carbon. Fessenden said silicon, referred to as "the building block of nature," is found in the earth's crust.
